Main skills

MERN Stack

Git

English

Juan Pinto

Full Stack Developer Jr | JavaScript | TypeScript | MERN Stack | Next.js | GraphQL | Firebase | TailwindCss | Material-ui | Test(Jest) | Git

Venezuela

Extract

Junior Full Stack Web Developer with 1 year of experience in JavaScript, Typescript, Next.js and the MERN stack (MongoDB, Express.js, React.js, Node.js), GraphQL, Firebase, TailwindCss, Material-ui. I am actively seeking an opportunity to apply and expand my knowledge in a dynamic environment.

Soft skills:
I stand out for my proactivity, quick adaptation to new technologies, and strong ability to work in a team and under pressure. I'm passionate about continuous learning and focused on delivering quality results.

Developed a complete task management application using modern technologies. Frontend: Next.js with TypeScript, implementing SSR for better SEO and performance. Backend: Node.js with GraphQL (Apollo Server) and MongoDB. Authentication: Firebase Auth integrated with custom middleware. Testing: Cypress for E2E testing and Jest for unit testing. Architecture: Modular pattern with separation of concerns, robust validation and centralized error handling. Tools: Git, and CI/CD configuration. The project demonstrates skills in modern full-stack development, cloud service integration, automated testing and code best practices.
